Such bonds may be registrable as to principal alone or both principal and interest, shall be in such form not inconsistent with this Act, shall mature at such time or times not exceeding twenty years from the date of approval of this Act, shall be in such denominations, shall be executed in such manner, and shall be payable in such medium and at such place or places as the commission may determine. Said bonds shall be sold in such manner and at such time or times and at such price as the Commission may determine, but no such sale shall be made at a price so low as to require the payment of more than 6 per centum interest on the money received therefor, computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, and the face amount thereof shall be so calculated as to produce, at the price of their sale, the cost of the bridge and its approaches and the land, easements, and appurtenances used in connection therewith, and in the event the ferry or ferries are to be acquired, also the cost of such ferry or ferries and the lands, easements, and appurtenances used in connection therewith. The cost of the bridge and approaches and approach highways, and ferry or ferries, shall be deemed to include all engineering, legal, architectural, traffic surveying, and other expenses incident to the acquisition of the bridge or the acquisition of the ferry or ferries, and the acquisition of the necessary property, and incident to the financing thereof: *Provided*, That the cost of acquisition of said bridge and approaches and approach highways, and ferry, shall not exceed the sum of \$945,000. provide a sinking fund sufficient to pay the principal and interest of such bonds as the same shall fall due and the redemption or repurchase price of all or any thereof redeemed or repurchased before maturity as herein provided. All tolls and other revenues from said bridge are hereby pledged to such uses and to the application thereof as hereinafter in this section required. After payment or provision for payment therefrom of all such cost of maintaining, repairing, and operating and the reservation of an amount of money estimated to be sufficient for the same purpose during an ensuing period of not more than six months, the remainder of tolls collected shall be placed in the sinking fund, at intervals to be determined by the commission prior to the issuance of the bonds. An accurate record of the cost of the bridge and its approaches; the expenditures for maintaining, repairing, and operating the same; and of the daily tolls collected, shall be kept and shall be available for the information of all persons interested. The commission shall classify in a reasonable way all traffic over the bridge, so that the tolls shall be so fixed and adjusted by it as to be uniform in the application thereof to all traffic falling within any such reasonable class, regardless of the status or character of any person, firm, or corporation participating in such traffic, and shall prevent all use of such bridge for traffic except upon payment of the tolls so fixed and adjusted. No toll shall be charged officials or employees of the commission or the Government of the United States or any State, county, or municipality in the United States while in the discharge of their duties, or municipal police or fire departments when engaged in the proper work of any such department.

The commission and its successors may fix such rates of toll for the use of such ferry or ferries as it may deem proper, subject to the same conditions as are hereinabove required as to tolls for traffic over the bridge. All tolls collected for the use of the ferry or ferries and the proceeds of any sale or disposition of any ferry or ferries shall be used, so far as may be necessary, to pay the cost of maintaining, repairing, and operating the same, and any residue thereof shall be paid into the sinking fund hereinabove provided for bonds. An accurate record of the cost of purchasing the ferry or ferries; the expenditures for maintaining, repairing, and operating the same; and of the daily tolls collected shall be kept and shall be available for the information of all persons interested.

SEC. 7. After payment of the bonds and interest, or after a sinking fund sufficient for such payment shall have been provided and shall be held for that purpose, the commission shall deliver deeds or other suitable instruments of conveyance of the interest of the commission in and to the bridge, that part within Illinois to the State of Illinois or any municipality or agency thereof as may be authorized by or pursuant to law to accept the same (hereinafter referred to as the Illinois interests) and that part within Indiana to the State of Indiana or any municipality or agency thereof as may be authorized by or pursuant to law to accept the same (hereinafter referred to as the Indiana interests), under the condition that the bridge shall thereafter be free of tolls and be properly maintained, operated, and repaired by the Illinois interests and the Indiana interests, as may be agreed upon;

but if either the Illinois interests or the Indiana interests shall not be authorized to accept or shall not accept the same under such conditions, then the bridge shall continue to be owned, maintained, operated, and repaired by the commission, and the rates of tolls shall be so adjusted as to provide a fund of not to exceed the amount necessary solely for the proper maintenance, repair, and operation of the bridge and its approaches under economical management, until such time as both the Illinois interests and the Indiana interests shall be authorized to accept and shall accept such conveyance under such conditions. If at the time of such conveyance the commission or its successors shall not have disposed of such ferry or ferries, the same shall be disposed of by sale as soon as practicable at such price and upon such terms as the commission or its successors may determine.
