Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act approved June 24, 1937 (50 Stat. 307), entitled “An Act to amend an Act entitled ‘An Act to establish a retirement system for employees of carriers subject to the Interstate Commerce Act, and for other purposes’, approved August 29, 1935”, as amended, is hereby amended as follows:

Subsection (a) of section 3A is hereby amended to read as follows: “(a) For the purposes of determining eligibility for an annuity and computing an annuity, including a minimum annuity, there shall also be included in an individual’s years of service, within the limitations hereinafter provided in this section, voluntary or involuntary military service of an individual within or without the United States during any war service period, including such military service prior to the date of enactment of this amendment: *Provided, however,* That such military service shall be included only subject to and in accordance with the provisions of subsection (b) of section 3, in the same manner as though military service were service rendered as an employee: *Provided further,* That an individual who entered military service prior to a war service period shall not be regarded as having been in military service in a war service period with respect to any part of the period for which he entered such military service.”

SEC. 2. Subsection (b) of section 3A is hereby amended to read as follows:

“(b) For the purpose of this section and section 202, as amended, an individual shall be deemed to have been in ‘military service’ when commissioned or enrolled in the active service of the land or naval forces of the United States and until resignation or discharge there-

from; and the service of any individual in any reserve component of the land or naval forces of the United States, while serving in the land or naval forces of the United States for any period, even though less than thirty days, shall be deemed to have been active service in such force during such period."

SEC. 3. Subsection (c) of section 3A is hereby amended to read as follows:

"(c) For the purpose of this section and section 202, as amended, a 'war service period' shall mean (1) any war period, or (2) with respect to any particular individual, any period during which such individual (i) having been in military service at the end of a war period, was required to continue in military service, or (ii) was required by call of the President, or by any Act of Congress or regulation, order, or proclamation pursuant thereto, to enter and continue in military service, or (3) any period after September 7, 1939, with respect to which a state of national emergency was duly declared to exist which requires a strengthening of the national defense."

SEC. 4. Subsection (f) of section 3A is hereby amended to read as follows:

"(f) Military service shall not be included in the years of service of an individual unless, prior to the beginning of his military service in a war service period and in the same calendar year in which such military service began, or in the next preceding calendar year, the individual rendered service for compensation to an employer or to a person service to which is otherwise creditable under this Act, or lost time as an employee for which he received remuneration, or was serving as an employee representative."

SEC. 5. Subsection (k) of section 3A is hereby amended to read as follows:

"(k) No person shall be entitled to an annuity, or to an increase in an annuity, based on military service unless a specific claim for credit for military service is filed with the Board by the individual who rendered such military service, and in no case shall an annuity, or an increase in an annuity, based on military service begin to accrue earlier than sixty days prior to the date on which such claim for credit for military service was filed with the Board nor before October 8, 1940: *Provided*, That this subsection shall not be construed to prevent payment of annuities with respect to accruals, not based on military service, prior to the date on which an annuity based on military service began to accrue."

SEC. 6. Subsection (l) of section 3A is hereby amended to read as follows:

"(l) An individual who, before the ninety-first day after the date on which this amendment of section 3A is enacted was awarded an annuity under the Railroad Retirement Act of 1937 or the Railroad Retirement of 1935, but who had rendered military service which, if credited, would have resulted in an increase in his annuity, may, notwithstanding the previous award of an annuity, file with the Board an application for an increase in such annuity based on his military service. Upon the filing of such application, if the Board finds that the military service thus claimed is creditable and would result in an increase in the annuity, the Board, notwithstanding the previous award, shall recertify the annuity on an increased basis in the same manner as though the provisions making military service creditable had been in effect at the time of the original certification subject, however, to the provisions of subsection (k) of this section. If the annuity previously awarded is a joint and survivor annuity, the increased annuity shall be a joint and survivor annuity of the same type, the actuarial value of the increase to be computed as of the

"(n) In addition to the amount authorized to be appropriated in subsection (a) of section 15 of this Act, there is hereby authorized to be appropriated to the Railroad Retirement Account for each fiscal year, beginning with the fiscal year ending June 30, 1941, (i) an amount sufficient to meet the additional cost of crediting military service rendered prior to January 1, 1937, and (ii) an amount found by the Board to be equal to the amount of the total additional excise and income taxes which would have been payable during the preceding fiscal year under Subchapter B of Chapter 9 of the Internal Revenue Code, as amended, with respect to the compensation, as defined in such Subchapter B, of all individuals entitled to credit under the Railroad Retirement Acts, as amended, for military service after December 31, 1936, if each of such individuals, in addition to compensation actually earned, had earned such compensation in the amount of \$160 in each calendar month in which he was in such military service during such preceding fiscal year and such taxes were measured by all such compensation without limitation as to amount earned by any individual in any one calendar month. The additional cost of crediting military service rendered prior to January 1, 1937, shall be deemed to be the difference between the actuarial value of each annuity based in part on military service and the actuarial value of the annuity which would be payable to the same individual without regard to military service. In calculating these actuarial values, (1) whenever the annuity based in part on military service begins to accrue before age 60, the annuity without regard to military service shall be valued on the assumption of deferment to age 60, and whenever the annuity based in part on military service is awarded under subsection 2 (a) of section 2 (a), the annuity without regard to military service shall be valued on the assumption of deferment to age 65; and (2) all such actuarial values shall be calculated as of the date on which the annuity based on military service begins to accrue and shall not thereafter be subject to change. All such actuarial calculations shall be based on the Combined Annuity Table of Mortality and all calculations in this subsection shall take into account interest at the rate of 3 per centum per annum compounded annually. The Railroad Retirement Board, as promptly as practicable after the enactment of this amendment, and thereafter annually, shall submit to the Bureau

of the Budget estimates of such military service appropriations to be made to the account, in addition to the annual estimate by the Board, in accordance with subsection (a) of section 15 of this Act, of the appropriation to be made to the account to provide for the payment of annuities, pensions and death benefits not based on military service. The estimate made in any year with respect to military service rendered prior to January 1, 1937, shall be based on the cost, as determined in accordance with the above provisions, of annuities awarded or increased on the basis of such military service up to the close of the preceding fiscal year and not previously appropriated for, and shall take into account interest from the date the annuity began to accrue or was increased to the date or dates on which the amount appropriated is to be credited to the Railroad Retirement Account. In making the estimate for the appropriation for military service rendered after December 31, 1936, the Board shall take into account any excess or deficiency in the appropriation or appropriations for such service in any preceding fiscal year or years, with interest thereon, resulting from an overestimate or underestimate of the number of individuals in creditable military service or the months of military service."

This proviso, as herein amended, shall be effective as of October 8, 1940. No right shall be deemed to have accrued under this proviso which would not have accrued had this amendment thereof been enacted on October 8, 1940."
